ABOUT ME

"Every Crowd Has a Rhythm. I Find the Connection"

• RESIDENT DJ :

Club Seen, Koh Samui 79 Beach club Woo Bar at W hotel

ARTIST BIOGRAPHY

My journey as a DJ began at the age of 23, driven by a genuine passion for music and the energy it brings to people. Now 27, I continue to develop my sound, refine my craft, and explore the connection between music, atmosphere, and human emotion.

For me, Djing has always been about more than simply playing tracks. It is about understanding the crowd, feeling the energy of a room, and selecting the right music to create moments that people can connect with, enjoy, and remember.

*One of the most important milestones in my career was receiving the opportunity to perform at **SEEN Beach Club Samui**, where I developed my skills and gained valuable experience in a professional beach club environment. This opportunity eventually led to a two-year residency, becoming a significant chapter in my journey and helping shape my identity as a DJ.*

Throughout my career, I have also performed at various hotels, bars, and restaurants across Koh Samui, gaining experience in different hospitality settings and learning how to adapt my musical selections to different audiences, occasions, and atmospheres.

*My experience has also extended to Phuket, where I have had the opportunity to work with prestigious hospitality venues, including **Anantara Layan Phuket Resort, Laku Beach club at Barcelo' Coconut Island, and Cape Diem Beach Club Phuket**. These experiences have allowed me to broaden my musical perspective and develop a deeper understanding of the role music plays in creating memorable guest experiences.*

My approach is guided by one simple philosophy:

I play music for the people, not just for myself.

I believe that being a great DJ is not about playing only the songs I personally love. It is about understanding what the crowd needs, recognizing the atmosphere, and making musical choices that bring people together. Every audience is different, every venue has its own character, and every moment deserves the right soundtrack.

What I enjoy most is feeling the energy that music creates. It is the moment when people begin to move naturally to the rhythm, when smiles spread across the room, and when strangers connect through a shared feeling without needing to say a word.

For me, that connection is the true power of music.

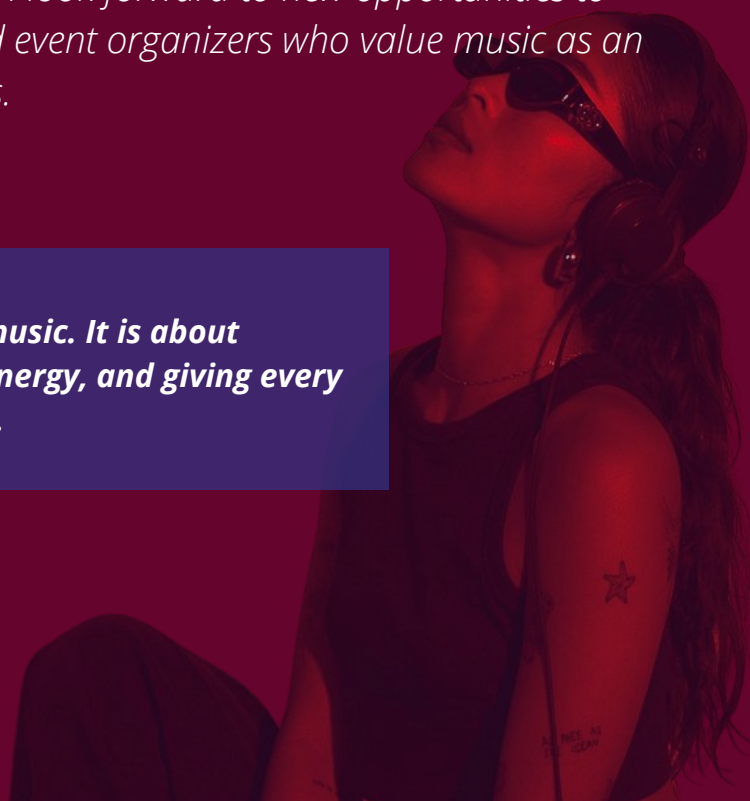

Every performance is an opportunity to create a journey. Sometimes the atmosphere calls for smooth, laid-back selections that complement a beautiful setting. Other times, it calls for uplifting rhythms, familiar favorites, and energetic tracks that bring people to the dance floor. My role is to read the crowd, understand the moment, and let the music evolve naturally with the energy of the venue.

My experience across beach clubs, hotels, bars, and restaurants has taught me the importance of versatility, musical awareness, and understanding the overall guest experience. Whether performing in a relaxed daytime setting, a luxury hospitality environment, or a vibrant nightlife atmosphere, my goal remains the same: to create the right mood and make every moment feel special.

I believe that a successful DJ set is not simply a collection of well-mixed songs. It is a carefully shaped experience built through musical selection, timing, atmosphere, and connection. The right track at the right moment can transform the feeling of an entire space, bringing people closer and creating memories that last long after the music stops.

As I continue to grow as an artist, I remain committed to discovering new sounds, improving my skills, and expanding my musical knowledge. I look forward to new opportunities to collaborate with hotels, beach clubs, venues, and event organizers who value music as an essential part of creating exceptional experiences.

for me, DJing is more than playing music. It is about understanding people, feeling the energy, and giving every moment the soundtrack it deserves.

- Bambu Huts — Koh Phangan , Thailand.
- Escobar Festival — Koh Tao, Thailand.
- Additional venues across Koh Samui — Hotels, bars, and restaurants.

Another meaningful chapter in my musical journey has been my experience at Bambu Hut, a place where music brings together people who share a genuine passion for sound, rhythm, and atmosphere.

*This experience has allowed me to explore a different side of my musical identity, focusing on sounds that are deeper, more organic, and emotionally driven. Through genres such as **Downtempo, Indie Dance, and Organic House**, I enjoy creating immersive musical journeys that connect with listeners on a deeper level.*

Rather than focusing solely on high-energy dancefloor moments, this style of music allows me to build an atmosphere through subtle rhythms, hypnotic grooves, organic textures, and carefully selected sounds. Every track becomes part of a natural progression, inviting people to slow down, feel the music, and become immersed in the moment.

Playing for people who genuinely appreciate music has given me a deeper understanding of the connection between sound, emotion, and environment. It has also strengthened my belief that music does not always need to be loud or fast to create a powerful experience. Sometimes, the most memorable moments come from the smallest details — a groove that captures the room, a melody that creates a feeling, or a rhythm that connects everyone without a single word.

My experience at Bambu Hut has further expanded my versatility as a DJ, allowing me to move between different musical identities while remaining true to my core philosophy: understanding the audience, feeling the energy, and selecting music that creates a meaningful connection.
